

ADVISOR BRIEF - 22 SEPTEMBER 2026

Alicia Karavani — Client Brief

10 clients · from the 19 September registration pool · Avla Gayrimenkul A.Ş.

10 clients have been assigned to you. These are not cold leads — every one of them **filled in our form and declared a budget**, then registered for the 19 September event of their own accord. They have already said yes once. The second yes is always easier than the first.

WHY THESE NAMES CAME TO YOU

Six were chosen because their names point to Istanbul's multilingual communities — the same profile as **İrma Miricanyan Sinan** and **Özlem Uçarkuş**, who came to you earlier for exactly this reason. These are families who often move comfortably between languages and who respond well to an advisor based in Athens rather than Istanbul. **Tina Miko** has 12 recorded contacts — the deepest file on your list.

THIS IS AN INFERENCE, NOT A FACT — PLEASE VERIFY

There is **no confirmed record** that any of these ten speaks English; the assignment was made on name profile. **Establish the language on your first contact.** If a client cannot hold the conversation in a language you share, the record goes back to Melih Ünver — tell the group and we move it the same day. Nobody loses anything by being honest early; we lose a great deal by discovering it three weeks in.

2 What you are inviting them to — three steps

You do not need a "just checking in" call. **There are three concrete offers.**

1 · Monday 28 September · Online webinar · 13:00–15:00 · Zoom · Free

District-by-district price ranges across Athens and its surroundings, what each area actually buys, and which areas we recommend and why. **Not a project pitch — a regional briefing.** Say it plainly: "you are not expected to decide anything." No capacity limit; anyone can join from anywhere.

2 · A private consultation

The webinar is general; **the private consultation is theirs alone.** Their budget, their area, their timing. By phone, online or in person — whichever they prefer. Offer it to those who attend the webinar and to those who cannot; the two are not alternatives to each other.

3 · If they wish — Wednesday 30 September · Palladium Tower, Ataşehir · Oxford Room · 13th floor

A meeting with two separate developers. The presentation comes from the people who build, not from an intermediary. 8 sessions × up to 2 investors = 16 places.

Morning **09:30 · 10:30 · 11:30 · 12:30** — a prime Piraeus project and more

Afternoon **14:00 · 15:00 · 16:00 · 17:00** — West Athens and Thessaloniki

This is the third step. Never pushed — offered **only if they want it.**

Poster — send it on WhatsApp after the call:

RULE OF THE CALL

No conversation closes before the webinar and the private consultation have both been offered. The 30 September meeting is the third step — opened only if they want it. If they cannot come, write down **why**. On 18 September we made 43 calls and got zero registrations; the reason was not disinterest — only one option was offered.

NEVER SAY

No developer or company names — say "our developer partners, whose portfolio covers Piraeus and Athens as a whole". No unit-level prices; say **"from €250,000"**. Never cast doubt on a specific

project's Golden Visa eligibility. Never name a competitor. Never quote a rental yield for a specific project.

3 Who these people are

The budgets in the table are **the clients' own declarations** from our form. Most sit in the **€250,000 – €300,000** band, a few above €400,000 — which places them squarely in the middle of our portfolio, where our entry level begins at €250,000.

4 Two things to take from every call

YOU ALREADY HAVE THE BUDGET — THESE TWO ARE MISSING

They **declared their budget on the form**; it is in the table above. There are two things left for you to capture:

1 • Area — central Athens, the coast, an island, Thessaloniki? Only 4 of the 44 have an area on record.

2 • Timing — three months, six to twelve, next year? Only one has it on record.

The budget is known, but **no shortlist can be built without area and timing**. Whoever writes those two to the record becomes the only person able to put an offer in front of that client.

WHY THIS WEEK MATTERS

The Golden Visa threshold in Attica has risen to €800,000, while conversion and restoration projects **remain inside the €250,000 exception**. A 15% transfer tax for non-EU buyers is on the table for 2027. The line to give the client: *the question is no longer where to buy, but which project is still inside that exception — and how the payment is secured*.
